Spacious, bright and freshly painted, this three bedroom family home is equally timeless as it is low maintenance. Presenting a classic low set home, this residence hides expansive indoor and outdoor areas which are private at the rear.

The interior has been designed with an emphasis on natural tones, functionality and space. Entering through the large tiled enclosed patio you reach the living room. To the right a great office then a huge lounge room flowing into an open kitchen that is newly fitted with matching appliances and gas cooktop, ample cupboard storage.

All throughout the interior, ample windows offer a light filled view of the exterior. Enjoy seamless access to a covered deck and in-ground pool. This private space is perfect for entertaining and dining year-round, and is surrounded by tropical plants that frame the property beautifully.
